EDUCATION

Xi'an University of Posts and Telecommunications, China June 2026 (Expected)
 Bachelor of Administration in Information Management and Information Systems

- Weighted Average Score: 88.65/100 (Rank 1st)
- Advisor: Prof. Xiaoxiao Wei

RESEARCH INTEREST

Consumer Behavior, Digital Platforms, AI-Human Interaction, User Generated Content, Blockchain Governance

MANUSCRIPTS UNDER REVIEW AND IN PROGRESS

Note: *Corresponding author; #Co-first author

[1] Fan, Y.*, & **Jiao, H.*** (2025). Doubling Down on Risk: A Topic-Based Analysis of User Satisfaction on Web3 Gambling Platforms.

- Submitted to *Journal of Retailing and Consumer Services* (ABS 2, Major Revision).

[2] Fan, Y., **Jiao, H.**, & Liu X.* (2025). When AI Meets Tourism: Exploring Functional Roles and User Sentiment in Generative Travel Planning.

- Submitted to *Tourism Management* (ABS 4, Under Review).

[3] **Jiao, H.**, Cai, T., Wei, X.*, & Ge-Zhang, S.* (2025). Influence of Tourism Destination Quality and Tourist Satisfaction on Sustainable Tourism Development: A Case Study of Xi'an, China.

- Submitted to *Journal of Cleaner Production* (ABS 1, Under Review).

[4] **Jiao, H.**, & Fan, Y. (2025). Fragile by Design: IS Failure and Trust Collapse in Web3 Gambling Platforms.

- Conference version planned for PACIS 2026 (earlier submission to ICIS 2025).

- Journal version in progress, targeting *Decision Support Systems* (DSS).

- Working in progress.

RESEARCH EXPERIENCE

Research Assistant

02/2024 – Present

Project: *Tourist Behavior and Purchase Analysis in Xi'an: A Comprehensive Study on Tourism and Consumer Dynamics*

National Social Science Fund of China (Grant No.23FGLB005)

Advisors: Prof. Xiaoxiao Wei and Prof. Pengfei Li, Xi'an University of Posts and Telecommunications

- Conducted and analyzed 1,000+ survey responses on cultural product consumption and tourist satisfaction.
- Applied SEM and ANN methods for data analysis
- Contributed to two manuscripts: one under review at JCLP; another utilizing SEM-ANN approach in progress.

Research Team Member

06/2024 – Present

Project: *Data-Driven Insights into Mental Health and Cognitive Decline among Older Adults in China*

Advisor: Dr. Jingqi Yang, Jiangxi Provincial People's Hospital

- Conducted empirical analysis using the CHARLS database to explore determinants of depressive symptoms and cognitive decline, applying SPSS and STATA for advanced statistical modeling (logistic regression, hierarchical analysis).
- Published 2 papers in SCI/SSCI-indexed journals as first author, providing policy insights on aging health management and digital inclusion strategies.
- Collaborated on multiple manuscripts under review, demonstrating expertise in large-scale database analysis.

Collaborative Researcher

01/2025 – Present

Project: *Generative AI in Tourism Planning*

Advisor: Prof. Yifan Fan, Southeast University

- Led data analysis using LDA topic modeling, sentiment analysis, and experimental design based on 54,000+ user reviews of AI platforms.
- Resulted in a submission to *Tourism Management* and development of actionable insights for AI service optimization.

Collaborative Researcher

01/2025 - Present

Project: *Trust Collapse Mechanisms in Web3 Platforms*

Advisor: Prof. Yifan Fan, Southeast University

- Designed a multi-study empirical project combining text mining, user behavior analysis, and experimental methods to investigate IS Failure and trust erosion.
- Generated two papers: one under major revision at JRCs (user satisfaction analysis) and one submitted to ICIS 2025 (failure mechanisms and trust dynamics).

Project Leader

06/2024 – 06/2025

Project: *Field Investigation on Rural Industrial Integration in Tianxi Village*

College Students' Innovation and Entrepreneurship Training Program (Grant No.24XUPT207)

Advisor: Prof. Xiaoxiao Wei, Xi'an University of Posts and Telecommunications

- Conducted a 45-day field investigation in Tianxi Village, a national demonstration site for rural governance in China.
- Designed and implemented a mixed-method study, including 40+ stakeholder interviews, on-site observations, and policy document analysis.
- Investigated the integration of agriculture, manufacturing, and tourism industries in the context of rural revitalization.
- Findings informed a management case published by the China Management Case-sharing Center and guided the design of a smart agriculture prototype.

TEACHING EXPERIENCE**Teaching Assistant**

Fall 2023

Information Organization and Management (XD121160)

- Graded assignments and managed coursework for approximately 80 undergraduate students, providing accurate and timely feedback.
- Facilitated group discussions and coordinated in-class presentations to enhance collaborative learning.
- Assisted the instructor with course logistics, including distributing materials and supporting classroom activities.

Orientation Speaker

Fall 2024

Orientation for New Students in Information Management and Information Systems

- Delivered a one-hour departmental talk to ~70 incoming freshmen, introducing the IMIS major and future academic pathways.
- Shared personal study strategies, course planning suggestions, and research experiences to

inspire student engagement.

- Represented outstanding undergraduate peers, contributing to departmental efforts in mentoring and student development.

ACADEMIC SERVICE & TRAINING

Reviewer 05/2025

International Conference on Information Systems (ICIS 2025)

- Independently reviewed two short paper submissions through the official PCS review system.
- Provided detailed written evaluations and constructive feedback.

Participant 06/2025

China Summer Workshop on Information Management (CSWIM 2025)

- Engaged in paper sessions and doctoral consortium discussions.
- Interacted with international IS scholars on emerging research topics.

Participant 07/2024

Business Leaders for a Changing World Summer School, The University of Hong Kong

- Completed intensive training in business leadership, strategic thinking, and innovation management through case studies and collaborative projects.
- Recognized as an Outstanding Participant for exceptional performance.

Participant 06/2025

Red Bird Challenge Camp, Hong Kong University of Science and Technology (Guangzhou)

- Selected for a competitive MPhil/PhD summer camp aimed at identifying high-potential research students.
- Collaborated in interdisciplinary teams to apply design-thinking and integrative problem-solving methods to real-world challenges in business analytics and information systems.

AWARDS AND HONORS

- **Top Ten Students** 2024
Recognized as one of the top ten outstanding students at Xi'an University of Posts and Telecommunications; selected annually among 20,000 students (Top 0.05%)
- **Principal scholarship** 2024
Xi'an University of Posts and Telecommunications (Top 0.1%)
- **First-Class Scholarship** 2024
Xi'an University of Posts and Telecommunications (Top 3%)
- **Second-Class Scholarship** 2023
Xi'an University of Posts and Telecommunications (Top 10%)

SKILLS

- **Research Methods:** Econometric analysis (linear & logistic regression, multilevel models), Structural Equation Modeling (SEM), Artificial Neural Networks (ANN)

- **Text Mining & NLP:** Topic Modeling (LDA, BERTopic, TopicGPT), Sentiment Analysis, Text Classification, Large-Scale UGC Data Mining
- **Software & Programming:** Python, STATA, SPSS, AMOS
- **Language:** Mandarin (Native), Cantonese (Native), English (Fluent)
- **Interests:** Snooker, Hiking, Violin
